

BCT

BALTEC CNC TECHNOLOGIES

OFFER

BCT is dedicated to produce precise mechanical components using CNC machinery. Our parts are used in machine building, automotive, rehabilitation and energy industries. Most of our production is supplied for partners in Germany, Switzerland and Sweden. Our company is optimized for production of single items and small batches up to 500 pieces.

BCT is efficient manufacturing company continuously improving with professional team, partners and optimal processes.

Implementation of Lean ideas allows us to be more effective each day. 5S, SMED, SD, PDCA and Kaizen groups ensures continuous improvement of daily processes.

In house training center ensures constant qualification improvement in the company. Accredited training program allows us to prepare new operators and improve skills of our current staff.
