Carlo Gavazzi Automation Components

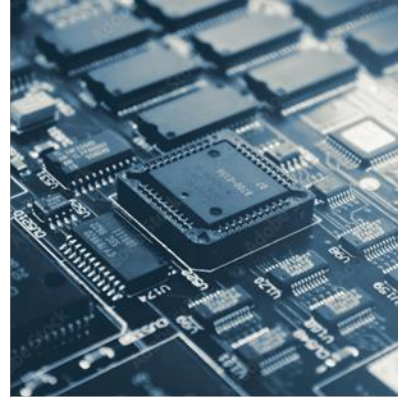

Industrial automation

Building automation

Automation Components is the **core business** operated by the **Carlo Gavazzi Group,** providing **solutions** for the **industrial and building automation industries. Original equipment manufacturers (OEMs), system integrators,** and **distributors** are our effective channels to meet our strategic industry initiatives.

Industries - Industrial automation

**Agriculture**

Semiconductors

Food and beverage

Mobile equipment

Plastics and rubber

Conveyors

Manufacturing machinery

Industries - Building automation

EV charging stations

Energy and building efficiency

Access controls

HVAC

Data centre

PV energy storage systems

Products portfolio

The **Automation Components** business unit provides a wide array of products focusing our expertise on offering state-of-the-art product solutions to meet the challenging application requirements of our strategic industries.

|						
Sensors	**Solid state relays**	**Energy meters and analysers**	**IIoT data management, communication and control**	**IIoT field devices**	**Current transformers**	**Soft starters and Frequency drives**
Monitoring relays	**Timers**	**Fieldbus - Dupline**	**Safety**	**Power supplies and UPS**	**Digital panel meters**	**Industrial relays and Sockets**

Application-oriented products for the industry 4.0

PD30 IO-Link smart photoelectric sensors

Designed to operate in specific applications in strategic industries such as:

- **Food and beverage**

- **Conveyors**

- **Plastics and rubber**

Communication protocol:

Application-oriented products for the industry 4.0

NRG Digital solid state relays

Designed to operate in specific applications in strategic industries such as:

- **Semiconductors**

- **Plastics and rubber**

Communication protocols:

Application-oriented products for the industry 4.0

UWP 3.0

Designed to operate in specific applications in the following strategic industry:

- **Energy and building efficiency**

Fieldbus communication protocols:

Dupline® · ASHRAE BACnet™ · Modbus · LoRaWAN® · DALI
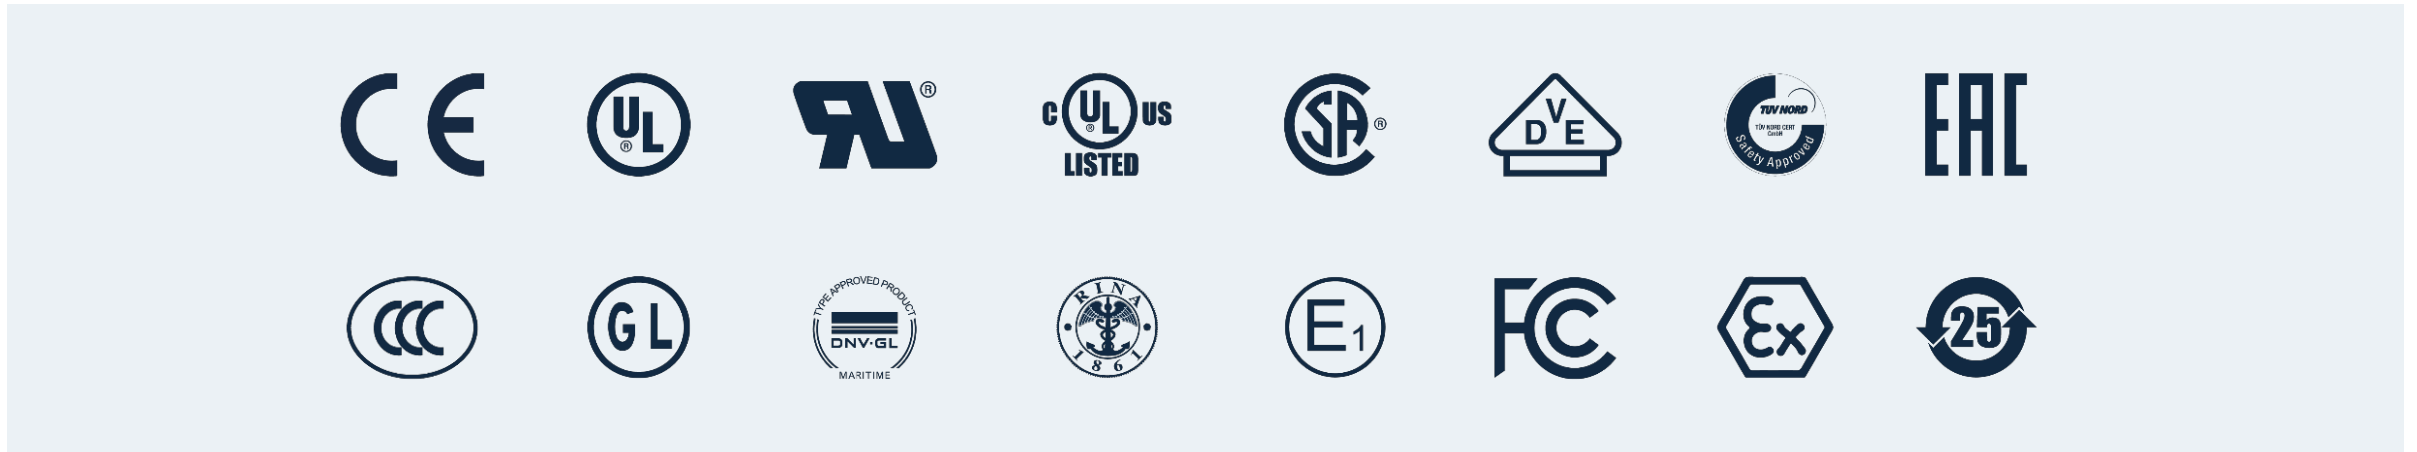

Internet communication protocol:

MQTT (AZURE/AWS) – FTP/SFTP/FTPS – REST-API – MAIA CLOUD

Guarantee of reliability

Carlo Gavazzi **products** earned the independent **approval** of the relevant bodies which govern our industry and the many industries we serve. They are all developed and manufactured in **full compliance** with the most important **international standard regulations.**

Our entities are operating in line with the requirements of **ISO 9001 quality management systems** and **ISO 14001 environment management systems** standard.

Our sales network

Carlo Gavazzi's products are marketed across Europe, the Americas and Asia-Pacific through a network of **23 wholly owned sales companies** and through more than **60 independent national distributors.** The network of competence centers, working in synergy with all the production sites, are focusing on technical innovation and custom design to provide product solutions for our strategic applications.
