OFFER

Our global footprint enables us to provide world-class service locally. This, together with our ability to engineer and assemble all kinds of harnesses as well as complete electromechanical modules, makes AQ Wiring Systems the ideal partner for customers requiring a certain level of quality.

We offer a wide range of cable harnesses for various applications. Customized cable harnesses with a different number of cables, terminals and connectors. All quality-tested and ready for installation.

Our business is production. We fully commit ourselves to live up to customer expectations for quality, delivery performance, technological development and service.
