Vocational training

- The vocational education system covers initial and continuing vocational education and training.
- Initial Vocational Education and Training can be started at the age of 14.
- The duration of studies is 2-3 years. The duration of studies for students who have already completed secondary education is 1-1.5 years.
- Students can continue vocational upper secondary education that also lasts 2 or 3 years and ends in a "matura" examination.

Continuing Vocational Education and Training

- Targets learners older than 18. It consists of programmes, usually short (a year or less), mainly dedicated to practical training (60 to 80% of the programme).

Scholarship

- A scholarship is paid to all students starting from the first semester of their studies (after basic school – 23 Eur);
- **Study scholarship is awarded for:**
 - learning progress;
 - active participation in professional competitions, school events, etc.
- **The scholarship is based on the average of the semester grades:**
 - Up to 7,49 – 23,00 Eur;**
 - From 7,50 – 46,00 Eur;**
 - From 8,50 – 92 Eur;**
 - From 9,50 – 138,00 Eur;**
 - From 10 – 230 Eur.**

Why should I choose vocational training?

- Training is practice-oriented;
- Flexible forms of studying;
- Scholarship;
- Students can live in a dormitory;
- International practice opportunities.
