OFFER

SLT Industrial Components (SLT-IC) is a subcontractor which will help to solve your problems. We opened a factory for contract manufacturing in 1993. Our experience allows us to ensure that your products are delivered in time, meet quality requirements and have competitive price. We strive to delivery products just in time and with the correct quality. Our success with doing so combined with a rational production operation in Lithuania ensures that our customers are offered attractive prices on products manufactured by SLT. Our management systems ISO 9001, ISO 14001, ISO 13485, IATF 16949 allow us to ensure that goals are being met. We manufacture products for such sectors as automotive industry, medicine devices, wood and forestry products, hygiene equipment and furniture manufacturing.
